

Corporate Profile

Commitment. Value. Partnership

COMPANY OVERVIEW

Grandweld is a fully integrated shipyard providing shipbuilding, ship repair, and engineering solutions to serve the offshore and marine industry around the world. Established in 1984, Grandweld has developed as one of the region's most established and versatile shipyards, providing both quality and value.

With its headquarters strategically located in Dubai, Grandweld has been continuously dedicated to offer a comprehensive range of proven offshore and marine products and services to clients worldwide.

OUR MISSION

We develop long-term relations with clients while delivering premium shipbuilding and ship repair products and services by harnessing our:

- Commitment to quality, health and safety, and the environment
- Engineering expertise
- Innovative culture
- Lean operations

By doing that, we ensure our long-term growth, profitability and sustainability which manifest into the well-being of our staff.

WHY US

We offer complete shipbuilding and ship repair solutions to clients worldwide. This breaks down to selecting the best equipment makers, using the best raw materials, and implementing quality workmanship, project management and supervision; all of this means better value to owners like you.

For the last three decades, we have been committed to quality, and on time delivery. Supported by an excellent after-sales service and commitment, Grandweld offers an unrivalled shipbuilding package from initial order inquiry to beyond final delivery.

Our track record has proven that the best relationships in business are the long-standing partnerships that are built on trust and deep cooperation. Our extensive clientele base from diverse geographical locations is a testament to our business flexibility.

WHY WE ARE DIFFERENT

Grandweld offers the following combined advantages to clients:

- In-house engineering allows us to tailor vessel designs according to your requirements.
- Track record of premium quality builds at competitive prices.
- Solid commitment to swift, on-time completion and after sales support.
- Geographical location: amidst many geographically active ports, terminals and offshore areas.
- Grandweld offers both steel and aluminum new builds and repair services.

OUR SERVICES

SHIPBUILDING

Delivering steel and aluminum vessels

We have been the trusted provider of workboats, security and offshore support vessels to a wide range of important maritime concerns, from offshore to ports & terminal operators.

Through our in-house engineering and design services, we provide each and every client with a dedicated, integrated service.

Our product range includes a wide variety of Offshore Support vessels, Terminal & Harbor vessels, Workboats, Security boats and Aluminum vessels.

SHIP REPAIR AND CONVERSION

Delivering quality around the clock

Grandweld Shipyards is developed to handle repair, refit and conversion for all types of marine vessels. We work around the clock to deliver high quality services at competitive prices and within swift delivery schedules, ensuring your immediate and long-term needs are always met.

NAVAL ARCHITECTURE AND MARINE ENGINEERING SERVICES

Truly integrated design and engineering
at every development stage

Our in-house engineering department gives us a competitive advantage and ensures a fully integrated service at every possible stage. We provide both customized designs from our highly proven existing portfolio, as well as customized designs from world's leading ship designers.

Using various computational softwares, we are able to provide the following engineering services:

- Hydrodynamic & CFD analysis
- Structural Analysis
- Seakeeping and Stability Analysis
- Propulsion Design
- Powering Calculations
- Production Engineering
- Vessel Interior Design
- Electrical Design and Engineering
- Mechanical Engineering and Modeling

OUR PEOPLE

Our people are the beating heart of our operations

Our business is built on integrity, passion, commitment, and mutual respect. The beating heart of our operations is our skilled workforce of 2000 employees. With a variety of backgrounds and experiences, our people come together in a diverse and rewarding working environment.

AFTER SALES SERVICE

Our commitment to our clients is beyond delivery dates

We provide a round-the-clock service, including a dedicated technical support team able to answer all your questions and serve your requirements promptly and effectively.

Additionally, we maintain a strong, diverse network of equipment suppliers led by an experienced team of seagoing marine and commissioning engineers who ensure fast and effective post-delivery support to all our clients, wherever they are in the world.

HEALTH, SAFETY and ENVIRONMENT

Health & Safety are always our top priorities

Commitment to Environment:

Our new facility at Dubai Maritime City (DMC) underlines our commitment to the environment. Designed with premium green building technologies and standards, our facility has been awarded the LEED Gold Certificate by the US Green Building Council (USGBC).

Also, in our commitment to environmental sustainability, we utilize our planet's renewable energy by powering our facilities with solar energy panels.

QUALITY

We aim to exceed your expectations

We have built a business based on trust and exceptional quality. Our clients return not only for our uncompromising focus on workmanship and customer service, but also for our values and the emphasis we place on long-term partnerships.

Our facilities and services are recognized by all IACS classifications societies, and have earned the ISO 9001:2008 for Quality Management and OHSAS 18001:2007 for Occupational Health and Safety.
